

SHAIK ASIF ALI

alishaikasif2004@gmail.com | +91 8008515323 | Hyderabad, India | [LinkedIn](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Data Scientist and Information Technology graduate with hands-on internship experience in data analytics, machine learning, and business intelligence. Proficient in Python, SQL, Power BI, Tableau, and statistical analysis, with a track record of building ETL pipelines, predictive models, and interactive dashboards. Experienced in delivering data-driven insights and workflow automation solutions that improve operational efficiency and support business decision-making across cross-functional teams.

PROFESSIONAL EXPERIENCE

Data Science & Data Analyst Intern

Feb 2026 – May 2026

Abilio IT Solutions, India

- Engineered 6+ interactive Power BI dashboards and KPI reports, reducing manual reporting effort by 60%.
- Analyzed 15K+ business records using Python, SQL, Pandas, and NumPy, identifying operational trends and improving reporting accuracy by 25%.
- Constructed ETL pipelines and reporting workflows using Python and n8n, decreasing reporting turnaround time by 40%.
- Integrated REST APIs, Google Sheets API, and workflow orchestration tools, reducing report generation time by 70%.
- Optimized SQL joins, subqueries, stored procedures, and transformation workflows, improving data quality by 30%.
- Delivered 10+ stakeholder dashboards and analytical reports supporting KPI monitoring and business decision-making.
- Streamlined data collection, preprocessing, and notification processes, reducing manual operational effort by over 80%.

TECHNICAL SKILLS

Programming Languages: Python, SQL

Machine Learning: Regression, Classification, Clustering, Feature Engineering, Model Evaluation, Cross-Validation, Scikit-learn
Exploratory Data Analysis (EDA), Data Cleaning, Data Transformation, Statistical Analysis, Hypothesis Testing, Data Validation

Visualization & BI: Power BI, Tableau, Microsoft Excel, Matplotlib, Seaborn

Databases: MySQL

Tools & Platforms: Git, GitHub, VS Code, Google Colab, Hugging Face, n8n

Integration: REST APIs, Google Sheets API, Webhooks

Core Concepts: Dashboard Development, KPI Reporting, ETL Pipelines, Workflow Automation, Business Intelligence

PROJECTS

Bank Loan Approval Prediction using Machine Learning

[Python, SQL, Scikit-learn](#)

- Built predictive classification models using Logistic Regression, KNN, and Random Forest, achieving classification accuracy above 85% with optimized hyperparameter tuning.
- Processed structured datasets using Python, SQL, Pandas, and NumPy for feature engineering, missing-value treatment, and exploration data analysis.
- Evaluated model performance using accuracy, precision, recall, F1-score, ROC-AUC, and confusion matrix metrics.
- Identified key customer and financial variables influencing loan approval through in-depth EDA and feature importance analysis.
- Deployed the predictive solution on Hugging Face Spaces for real-time predictions and interactive user engagement.

Retail Sales Analytics Dashboard

[Power BI, SQL](#)

- Analyzed 10,000+ retail transactions across outlet types, regions, and product categories to identify revenue trends and performance gaps.
- Developed an interactive Power BI dashboard with KPI cards, drill-through reports, and dynamic filters for revenue analysis, category analysis, and Tier-3 outlet performance.
- Prepared and transformed underlying datasets using SQL for data cleaning, aggregation, and performance-ready reporting.
- Consolidated multiple business metrics into a centralized reporting framework, reducing analysis effort by 35%.

Automated Lead Management System

[Python, n8n, Google Sheets](#)

- Designed an end-to-end workflow automation system integrating REST APIs, Google Sheets, webhooks, and email automation for lead scoring and routing.
- Built lead-scoring, filtering, and routing pipelines capable of processing hundreds of lead records automatically.
- Automated campaign reporting and communication workflows, enhancing engagement visibility and performance monitoring.
- Reduced manual operational effort by over 80% through orchestrated API-driven data synchronization and workflow automation.

CERTIFICATIONS

- Data Analytics Job Simulation — Deloitte (Forage), Mar 2026
- Build an AI Agent — IBM SkillsBuild, Mar 2026

EDUCATION

Bachelor of Technology in Information Technology

2021 – 2025

CMR College of Engineering and Technology | CGPA: 6.5
